

Feed Mixer Scale

Upgrade from pen and paper to smarter feeding

The image shows a smartphone displaying the LIBRA FEED mobile application. The app interface is as follows:

- Header:** LIBRA FEED (with a trademark symbol) and Agrimatics logo.
- Display:** A large digital scale readout showing "1420". Below it, text indicates "Load: Alfalfa Hay" and "Remaining 3470 Gross lb".
- Buttons:** Tare, Timer, Cancel, Next.
- Section 1:** Alfalfa Hay (1357/2778 lb) and Mixer/Ration 1 (1357/5556 lb).
- Section 2:** Feed Group 1/Entire Ration.
- Section 3:** Operator.
- Bottom Navigation:** Display, Rations, Pens, Transactions, Mixers, Device, Settings, and a menu icon.
- Smartphone Footer:** Shows the same app interface on a smaller screen, with a circular progress bar at the bottom showing "48% Alfalfa Hay" and "24% Mixer".

Libra Feed (previously Libra TMR) is an easy-to-use tablet and smartphone-based ration weighing and feed management system designed to simplify tracking, adjusting, and managing your cattle's feeding with accuracy and efficiency.

Easy to install and use

The Libra Feed hardware connects directly to your feed mixer's load cells and wirelessly communicates with the free Libra Feed app on your iOS device via Bluetooth®, allowing you to conveniently manage loading and feeding tasks from the tractor or loader.

Simply enter your pens, ingredients, and rations into the app, and the system will guide you on the exact amounts to load into the mixer and deliver to each pen.

- ✓ **Track feeding data for better management**
- ✓ **Eliminate the need for feed sheets and scale heads**
- ✓ **Save money by reducing waste and inaccuracies**
- ✓ **Support cattle health with precise feeding**

Libra Feed Features

Create Rations

Easily create and edit unlimited ingredients, rations, and pens directly within the app

Work Offline

Feed anytime, even without an Internet connection

Track Inventory (NEW!)

Keep track of ingredient inventory and always know what's on hand*

*Libra Feed Pro subscription required

Customize Feed Intake

Adjust the feed intake for any pen

Ensure Optimal Mixing

Set per-ingredient and final mix times

Fix Ingredient Overloads

Automatically adjust the batch size based on any loaded ingredients

Handle Refusal

Use bunk readings or weighback to adjust based on refusal

Feed Dry Matter or As-Fed

Load and feed rations on a dry-matter or as-fed basis

Schedule Feedings

Divide any ration into multiple feedings per day

Export Data

Export ration or feed data easily via email or automatically back it up to the cloud for free

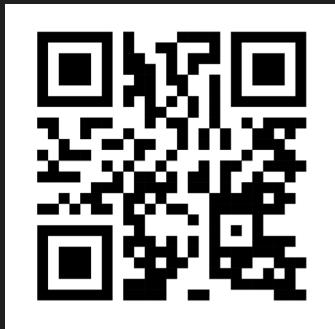

Share and Manage Data

Access, edit, and manage data from your computer, grant access to others such as nutritionists, and easily download reports on ingredient usage and operator accuracy*

*Libra Feed Pro subscription required
